- Company branded custom fender
- Cone holder
- Winch
- Outrigger pads
- Cameras
- Bodies at 14' or 16'
- Overcab box
- Even more options available

EZ-HD Hauler

FISK tank haulers allow you to lift, transport and set above ground and underground tanks ranging from 120 gallons to 1,000 gallons. The EZ-HD comes with a powder-coated frame to deter rust in all possible locations. The EZ-HD Hauler has the advantage of a shorter backup turning radius and a smooth ride suspension system. All of the wirings are enclosed to protect them from damage and weathering as well. It has a guarded tail light along with L.E.D. side marker lights.

Imagine more tank sets per day. Your drivers spend less time in the field and that means more money in your pocket.

With FISK, Expect More.

Expect more Quality. Capacity. Up-time. Safety. Opportunity. Profit.

Fisk Tank Carrier has been servicing the propane industry since 1954. We are a member of G.D. Roberts & Co., Inc., which began in 1870 as an innovative blacksmith shop. Since the beginning we have put customers first, and we strive to be a partner in their success.

After being in the same location for 140 years, Fisk moved down the street and underwent an expansion in 2010. After expanding again in 2019, we now have 162,000 ft² on 18 acres, and have gone from a single-bay manufacturing plant to having six bays. The expansion gave us the opportunity to expand our paint facilities and install more technologically advanced equipment.

Our focus on quality is unmatched in the propane industry. We utilize aluminum for light weight and steel for sturdy construction. Our powder coat process allows for the longest lasting color and wear and tear.

OUR PROMISE:

- Cutting edge technology for development and manufacturing
- Innovation in design utilizing industrial design principles
- Old-school personal customer service
- Superior quality

YOUR GOALS + OUR KNOWLEDGE = GOALS EXCEEDED

We provide customers an advantage over their competition by supplying them superior equipment.

AT FISK, WE BUILD OUR TRUCKS FROM THE GROUND UP, WE DON'T BOLT PIECES TOGETHER.

We are committed to quality and innovation in all our products, knowledgeable sales staff, engineering excellence and outstanding customer service. We treat all our clients and staff like family.
